## 2022 Special Hosta Club List

**Be sure to order early as some quantities are limited.  
Minimum order of 5 plants per cultivar.**

Happy New Year!

First, let me thank all the local hosta clubs that ordered our "Club" hostas last year. Every year we try to find a group of new hostas that we offer to hosta clubs at a special wholesale price. Please order early as some hostas may be limited. We can send them bare root or in the pots, just ask about the best shipping times.

This year we have several exclusive hostas for clubs that will not appear on other wholesale lists. 'Brocade', an elegant highly ruffled hosta heads the list that also includes the unique 'Lady Peyton' and dangerous 'Quicksand'. Two of our newest hostas are also on the list, 'Tiki Bar' and 'Gold Angel'. **Clubs can also order off our wholesale lists, both liners and bare root plants if quantities allow.**

We are willing to work with you to make your next hosta sale a success, just let us know how we can help. Remember, these hostas will also be pictured in the Hostas for Club section of our Website, [www.HostaHosta.com](http://www.HostaHosta.com), in January.

**The hostas listed below are sold as bare root divisions in multiples of five.** They have been grown out to fill a one quart or larger pot, except for minis. These plants have not and will not be divided. All prices are FOB Franklinton, NC and are shipped UPS. Your club will only be billed for the exact cost of shipping. No boxing or handling fees! All are guaranteed true to name and are nursery certified pest free. Thank you for your continued support of Green Hill Farm!

### 2022 Club List Offerings:

#### 'Brocade'

Exclusively for hosta clubs, New

Medium. This is an elegant hosta! It is not yellow, and it is not green, something in between. The leaves are highly ruffled with the petiole pinched at the base of the leaf blade. This is a bright and shiny hosta from Randy Goodwin that we are offering only to hosta clubs this spring.

**\$15.00**

### **'Doubled Up'**

#### GHF Introduction

Large. This sport of *H. plantaginea* found at our nursery has flowers that are larger than species that open wide, with shorter, thicker scapes and the clump is more compact the leaves having great substance. It is tetraploid form of the species and has the largest of all hosta flowers, still very fragrant. **\$10.00**

### **'Gold Angel'**

#### New

Very Large. Hosta hybridizer Leslie Fraser always thought there should be a gold version of 'Blue Angel'. And he made it happen! This giant hosta has excellent yellow color and can tolerate some sun, especially in northern gardens. We have been very pleased by how well it has grown here in North Carolina, and we think it will make an impressive clump in your garden. **\$18.00**

### **'Green Thumb'**

Mini. Mini, rounded, "mouse-like" green leaves with good substance make this hosta from Tony Avent a cute addition for any rock or mini garden. But maybe the best thing about this hosta is the purple flowers and scapes that truly make it a collector's dream. **\$8.00**

### **'Jet Black'**

Large. This is a very blue hosta that grows quickly into a large mound. It has lots and lots of powdery white wax that softens the appearance of its sturdy cupped and puckered leaves. Near white, nicely proportioned flowers appear in late June. Another great landscape hosta from Doug Beilstein. **\$8.00**

### **'Lady Peyton'**

#### Exclusively for hosta clubs, New

Medium. This very interesting hosta from Charlie Kwick holds its greenish-yellow leaves very upright. Despite their heavy substance they are ruffled and dramatically folded flowing to a sharp point. Certainly, something different for your garden. **\$12.00**

### **'Quicksand'**

#### Exclusively for hosta clubs, New

Medium. Another introduction from Doug Beilstein, 'Quicksand' has yellow margins with tight ruffles all around the edge. The lance-shaped leaves are shiny green. This fast-growing hosta will be a "killer" in your garden! **\$15.00**

### **'Rough Lemon'**

#### GHF Introduction

Medium. Rescued from the compost pile, this medium-sized hosta has managed to captivate us with its beautiful yellow spring color and fast-growing habit. The unique leaf shape and brilliant red petioles make it a beautiful addition to our red hosta line. Named after a variety of lemon with a similar diamond-in-the-rough endearment, you may find yourself falling in love with this hosta too! **\$15.00**

### **'Tiki Bar'**

#### GHF Introduction, New

Small-Medium A sport of the very popular 'Appletini', 'Tiki Bar' will be sure to continue inspiring summer beach vacations and fruity drinks enjoyed in the coolness of your shade garden. The apple yellow-green centers are surrounded by a thick, green margin. The heart-shaped leaves are slightly folded and together make a very tight, tidy mound that will look very attractive in any garden. This is a hosta from our new bar collection!  
**\$18.00**

### **'Twice as Nice'**

#### GHF Introduction

Medium-Large. As wonderfully colorful as my 'Ambrosia' is this tetraploid form of it is 'Twice as Nice'. Yes, it is a little smaller and more compact but also has more substance and richer wide blue margins and a bright yellow leaf center. The flowers are fragrant, of course. Pretty nice! **\$12.00**

### **'Twist Tie'**

#### GHF Introduction

Small. 'Twist Tie' is a small blue green hosta with very upright twisted leaves. It is from 'Tongue Twister' and like it has very good substance and is one of the last hostas to go to sleep. Twisted hostas are my new passion, wait to you see what comes next. **\$8.00**

### **'Yippee'**

Mini. This cute little, white-margined mini just bubbles with excitement. It holds its leaves almost straight up and yells 'Yippee'! Another of Doug Beilstein's special hostas, this one will add height and verticality to any bowl of miniature hostas. **\$10.00**
