## **Spring 2019 Hosta Liner List, January Availability**

For the last several years we have been offering some of our best new hostas as liners. As our production grows, this year we are able to offer 50% more different cultivars than we did just a year ago. Many never before offered hostas will appear on our May list also. We will send you several availability lists of our Classic Hosta Liners™ this year with different delivery times.

**The hostas on this January Availability are now dormant in the nursery and are ready to be shipped now or later in the spring as quantities allow. Please order early to avoid disappointment as some quantities are very limited.**

The wholesale hosta market has seen the price for hosta liners fall to extreme lows in the past decade. While this has been good for the consumer, it has also resulted in the demise of two cutting edge liner producers of new hosta cultivars. I think many in our business have forgotten that hostas have value and that they are not inexpensive to produce. Our liner prices are generally one half or less than our bare root plants which in turn are less than half of their retail price. For Example: Our very popular ‘Fruit Loop’ is a \$5.00 liner, a \$12.00 bare root plant for a hosta that averages \$25.00 retail. Yes, **we do offer quantity discounts on all our hosta offerings**, just ask and we will be glad to work with you as best we can. We want this to be profitable for us all.

**Classic Hosta Liners™ in 96 plug trays and the minimum order is only 12 per cultivar with a total minimum liner order of 48 plants.**
